

MINNESOTA CULLINGS.

The News of the Week Throughout the Entire State.

Mans Boyre, of Northfield, broke his leg by jumping from a wagon while the team was running away.

Simon Garrison, of Red Wing, told his wife that he was tired of living and was going to blow his brains out. He kept his word.

Wm. Stebbins wants \$5,000 from the city of Northfield for injuries received from falling on a defective sidewalk.

John Bistch, of Hastings slugged his mother-in-law and as unfeeling justice of the peace sentenced him to ninety days in the workhouse.

New Ulm is to have a basket factory that will employ twelve men or more. M. B. Clark of Gary, S. D., will start it.

Clara Blatz, of St. Paul, who killed John Dougherty, with whom she was living, was sentenced to twenty years in the penitentiary.

The Salvation army has brought suit against the authorities of Red Wing for false imprisonment and want \$6,000 damages.

Frank Fan, an Italian rioter, who shot Officer Smollet at Duluth during the recent labor riots, has been acquitted on account of insufficient evidence to convict him.

While M. H. Gamble's machine was threshing at J. Kaege's near Spring, field four large stacks of wheat caught fire and were wholly destroyed.

While playing with a gun John Carlson, a Fergus Falls youth, accidentally shot his little sister, aged 8 years, inflicting a wound which may cause death.

Charles Williams and Abe McCord have been indicted for grand larceny at Winona, and Henry Williams, John Murray and Thomas Kelly indicted for burglary and grand larceny.

Sheriff Schneider of Washington county, Nebraska, at whose instance Springer, wanted for embezzlement, was arrested and held by Deputy Sheriff Foley, arrived at Lake City and took charge of the prisoner.

Phemie Carlson, the eight-year-old daughter of John Carlson of Jewett lake, was accidentally shot by her younger brother, who was playing with a shot gun. The charge entered the hip, inflicting a painful and dangerous wound.

The twelve-year-old daughter of Mrs. Aline Austenson, residing on an island in Grove lake, was drowned while wading in the lake with a little brother. She got beyond her depth, and drowned before assistance could be called.

The four-year-old child of Tyler Spalding living at Pleasant Hill, Winona county, was struck by lightning during a thunder storm and instantly killed. Mrs. Spalding was also seriously shocked, and has not yet recovered. The storm was heavy all through Winona county.

Red Wing is having a tussle with the Salvation army. The council passed an order prohibiting them from parading the streets, but they paraded just the same, and now the police have ordered to make a flank movement and drive the army into the calaboose.

A dog thought to have hydrophobia was shot by the city marshal in the streets of Owatonna. The people are somewhat anxious, as a number of dogs and cattle presumed to have had hydrophobia have been killed by the city marshal.

Charles Simpson, a middle-aged farmer living two miles north of Northfield, was struck by a falling timber while helping put up a windmill on the farm of his brother George. He received fatal injuries and died leaving a wife and several small children.

At Eyota fire was discovered in the billiard hall owned by F. Winkler, and before it could be got under control burned the building of L. N. Wilson, the hotel owned by Z. M. Wilson, an unoccupied house, the meat market of Mattson & Co., and the jewelry shop of L. Sheridan.

Several pickpockets were caught New Ulm during the fair and a number of people, especially ladies, were robbed. Two were arrested but escaped for a lack of evidence. A third was caught for the theft of a watch and several shots were exchanged, but he escaped. The sharpers also passed off counterfeit money on the business houses.

Burglars entered Oscar Fisk's news stand and the office of the Wisconsin Lumber company at Oatonna, but obtained little of value in either place except a box or two of cigars in the former. Next night they entered Louis Fedder's place. Fedder's home was somewhat burned, and they had no trouble in taking out the iron cash box containing \$150. They also opened the cash drawer in the counter, without ringing the bell, and took what silver was in it. No trace.

The house of Mat Haub, of Spring Hill, was burned with its contents. The Haub's sons, Aloys and Conrad, aged respectively twenty-one and twenty-five years, were burned to a crisp. George, the eldest son, in trying to rescue his brothers from their room in the upper part of the house, was somewhat burned, and had his arm badly cut, but his injuries are not serious. Mr. Haub is a well-to-do farmer. The fire must have caught from the stove from some unaccountable means. The house was a new one and the loss is \$1,000, without any insurance.

St. Joseph's Catholic church at Red Lake Falls was discovered to be on fire. Owing to there being no fire department in the town but little effort was made to save it, and it was completely destroyed. A large four gallon can of kerosene oil under the altar revealed the cause of the fire. The church was the one built by the French, and they are greatly excited over the burning. The recent church troubles here are supposed to be at the bottom of the incendiary work. Loss about \$1,000, insured.

It Failed However.

Shoe buckles came into England with the restoration, and became so large, costly and popular that at one time their manufacture gave employment to 4,000 people in Birmingham alone. When shoestrings, always affected by the Puritans and Quakers, resumed their sway, the buckle makers petitioned the Prince of Wales to try to avert their ruin. This he endeavored to do by wearing buckles himself and commanding his household to follow his example.

FOR THE FARMER.

Early in the life is the time to couple the sheep in order to secure early lambs. Use thoroughbred rams.

Milk may be canned just as you can can fruit. Bring the milk to the boiling point and fill your jars to the brim with it, then stir air-tight. This will keep any length of time, and be just as good when opened as when put up.

As a rule hogs in the past have had too large a per cent. of fat in proportion to the lean. This can be changed to a considerable extent by feeding more muscle and bone forming materials and less fattening foods and especially so during growth.

It may seem like a bit of a waste of a good rake is the best hoe, if the rake have long, sharp teeth and is used before the weeds get too large among cabbages, cauliflowers and other plants that need frequent working try the rake early and often.

See that a good supply of bedding is stored away for use during the winter. It is quite an item in keeping the stock comfortable, while properly managed it will add materially to the value of the manure heap and the surest plan of having a supply is to secure it in good season.

Wheat bran is one of the very best materials during the winter. It not only increases the value of the different materials as food, but also adds nearly its cost to the manure heap. It can usually be purchased now at a low price and it will be a good plan to secure a good supply.

At the Wisconsin dairymen's annual meeting, as reported in Hoard's Dairyman, Prof. Robertson said he had proved there was a loss in churning cream sweet rather than slightly acidified. In 100 lbs. of butter in cream, 97 were obtained in acid cream while but 77 parts were secured in sweet cream.

Care must be taken to cure the potatoes thoroughly before storing away. If not thoroughly dry they heat and rot. They should be spread out thin and placed where there is a good circulation of air. If carefully done they can be kept without any trouble.

Should cheese puff up during curing, it shows that the gas is generating too fast and the room has been too warm. The cheese thus puffed up should be removed to a cooler place, and, as a last resort, should be pricked to allow the gas to escape. A good cheese may be spoiled by not giving good attention while curing.

It is said that J. N. Muncy, a well known Iowa Holstein breeder, has been experimenting with a view to finding out the approximate cost of a pound of milk and a pound of butter. The result with two cows (Holsteins) were an average food costs of 38.2 cents per 100 pounds of milk and a trifle over 8.3 cents per pound of butter.

An exchange says Canada thistles are easily exterminated by sprinkling them with dry salt when wet with dew or rain; the finer the salt the less it will take. The operation may have to be repeated two or three times, as some are always missed, and young plants will start from the roots. Large plants are more easily killed than small ones.

Old bones, boots and shoes or old pieces of leather contain a large percent of plant food and should be gathered up and buried near the roots of fruit trees. They will dissolve slowly, but will furnish a supply of plant food for a long time, besides adding to the appearance of the place.

An old sow that has shown herself a good mother should be preferred to one that is younger. The practice of using young sows is sure to end in degeneracy of stock sooner or later. To avoid liability from the weight of old sows, which sometimes crush their pigs, reduce them in flesh. As a rule, most brood sows are too fat, in which case pigs come weak. Clover, with hay, is a good feed for the best food for a brood sow in summer.

Many farmers are of the opinion that old wheat is the best for seed. In alluding to the matter, which is just now a very timely topic for discussion, an Eastern writer thinks there is no doubt that wheat seed retains its vitality under favorable conditions many years, but the reason why a year's addition to the age of wheat makes it better for seed is undoubtedly its greater dryness and hardness. This is especially true after a damp summer and harvest like that just passed. If wheat is like that just passed, it is as dry as possible. It may be even advisable, after getting it dried out as much as you can otherwise, to place it thinly for a few hours in a kiln at a heat of 100 degrees Fahrenheit. The more moisture that can be got out of the seed without injuring vitality, the more it will swell when placed in moist soil, and the growth will be all the more vigorous.

It is our firm belief that obedience in children can be taught without blows, that whipping a child lowers morally both parents and child; that the physical suffering inflicted tends toward making the child a coward. As to the slapping habit indulged in by many mothers, we cannot condemn it too severely. It is a vicious crop of the mother's hand, and it is made of the mother's temper. Such punishment makes a child angry, stubborn, and rebellious, and the benefit looked for from such treatment is not forthcoming.

THE HOUSEHOLD.

Ink stains on silk or woolen fabrics can be removed by saturating in spirits of turpentine.

Chicken broth is excellent food in cases of dysentery or cholera morbus, especially if made of old fowls.

Molluscs rubbed on grass stains on white dresses will bring out the stains when the clothing is washed.

When there is a doubt as to the fastness of the colors of new print or gingham garments let them lie in salt water an hour before washing.

Coughs may be much alleviated and dry throat cured by glycerine and lemon juice taken at night. The glycerine should be diluted.

To prevent flies from spoiling gilt frames and fittings, brush them with camel's hair brush wet in water in which onions have been boiled.

A few drops of ammonia in a cup of warm rain water, carefully applied with a wet sponge, will remove the spots from paintings and chromos.

It is unfortunate to scorch linen which, ironed it, and fortunate that the rays of the sun falling upon the yellowed surface will bleach it.

White zephyr articles, if but slightly soiled are readily cleansed by rubbing with dry flour and hanging out of doors on a clear, breezy day.

Store the onions after harvesting where they will be kept dry and cool, and have them spread out in thin layers; they will keep better.

To set delicate cloths in embroidered handkerchiefs, soaked 10 minutes previous to washing in a pail of tepid water, in which a desert spoonful of turpentine has been well stirred.

Wash pantry shelves with lime water made by pouring water on a small piece of quick lime and allowing the sediment to settle. Lime and water also make the best wash for cellar walls.

Salt sprinkled on any substance burning on the stove will stop the smoke and smell. Salt thrown upon cloths blazing from the fat of broiling chops or ham will cause the blaze to subside.

Little girls wear foulard dresses of all colors. The skirt is trimmed around the foot with tucks, the little chemise falls loose over the waistband, and the sailor collar, open at the neck, shows the neck very prettily.

Graceful little English jackets, the complement of simple walking-dresses, are made in most cases with elegant fancy vests, though occasionally the bodies of the gown imitates a waistcoat underneath the cutaway jacket.

A lot of freckles may be made of the following good and harmless cosmetics: 1. Three grains of borax and five grains of rose-water. 2. One pint of orange flower water, one ounce of glycerine, and one dram of borax.

CHILI SAUCE.—Twelve tomatoes, peeled and chopped fine, six peppers, one large onion, one cup of cider vinegar, three large spoonfuls of sugar, one large spoonful of salt and one teaspoonful of each of cinnamon, cloves and all-spice.

A Lewiston, Me., paper says: "A method of distinguishing the muskrum from the poisonous toadstool is said to be by sprinkling salt on the under side. If it turns black the mushroom is good; if yellow, it is poisonous. Time should be given the salt to act."

A medical journal offers a brief rule or two for a beneficial vacation: Keep cool; don't fret your nerves; strive to keep your temper, and be deliberate. Don't hurry. A vacation in the summer is a good thing—a very good thing—provided you go about it like a sensible being.

A cool cellar does not mean a damp cellar. The cellar should be well aired every day, and also given a good white washing whenever it is necessary to do so. Every portion of the cellar should be thoroughly cleaned, and it has a cement floor it should even be well scrubbed.

Powdered borax mixed with a little powdered sugar and scattered around in spots will prove certain death to cockroaches and to ants, and if that is not handy a few drops of spirits of turpentine sprinkled here and there will be as effective in the case of these nuisances as it is in the case of moths.

Vanilla flavoring is apt to be destroyed to a great extent during baking or boiling, and in flavoring a cake it will be found a good plan to postpone until the baking is well advanced. The wet yeast is clean hand with the extract and rub over the top of the still hot cake; the flavor will penetrate and be very delicate.

A New Bedford (Mass.) woman reports a new and, it is claimed, a successful cure for diphtheria. A little nephew of hers was sick with the disease and the child's mother was told to give it a tea made of birch. She did so and the white coating of the throat and mouth began rapidly to loosen and come off, an entire recovery following. The tea may be used as a drink or a gargle, or held in the mouth.

How to Fix Your Black Eyes.

Echymosis of the eyelids—in plain language, "a black eye"—is by no means a misfortune confined to bruisers. Even a slight blow from any source is liable to cause it, and it is an interesting question to the man of peace and social standing how to get rid of it in the shortest time possible, since no excuse which may offer is likely to be accepted by his associates. The laity have many remedies, such as raw oysters, a rotten apple, scraped raw potato, and raw beef. But none of these are efficacious. Among physicians the prescription of Mr. Lawson has been popular. That consisted of the tincture of iron and of Niphol, and a few drops of rosemary and camphor mixture. Lately another preparation has been strongly recommended, the ascription being made that there is nothing to compare with it in preventing black eyes. It is made of the tincture of strong infusion of capsicum annuum, which is mixed with an equal bulk of mucilage of gum arabic, and a few drops of glycerine are added.

Non-Trust Try It.

Would we advise you to marry a man whom you really and truly love very dearly to reform him? Ethel asks. Well, yes, if you love him so dearly, Ethel, we would. But we would advise you to kill him first. You won't have half the trouble reforming him afterward, and he'll make a much better husband. A fellow who won't reform for his sweetheart, Ethel, isn't likely to do so for his wife; you can bet your own engagement ring against your dower on that.—Brooklyn Eagle.

A curious historical document hangs in the private office of Judge John J. Gorman, at 2 West Fourth street, New York. It purports to be the original commission granted by John Hancock, President of the United States, on October 10, 1770, to John Paul Jones, the great naval hero of the Revolution. The signature of President Hancock is in his well-known round hand, and the script of John Paul Jones' name appears to have been written in the same bold hand.

Humorous Observations.

Jersey lightning never strikes twice in the same place. When a man gets one dose he starts at once for civilization.—Life.

"It's always a relief to me when it comes time to pay off Bridge," said Mrs. Hoesekop. "Why?" inquired her husband. "Because that is the only time when I feel positive that she doesn't employ me."

An exchange says: "What does a man make by getting married?" Occasionally he makes a fool of himself. It also happens occasionally that he makes his wife miserable.—Texas Sittings.

Enamored Swain: For you, darling "I wad lay me down and dee." Practical Maiden: "That sort of thing is clear out of date, Willie. What a girl wants nowadays is a man who will get up and bustle for her."

Absence of mind occurred when a Boston man purchased a bit of copperplaster for his nose and a postage stamp for a letter. He was so busy with the copperplaster on the letter, affixed the stamp to his nose, and tried to crawl into the letter-box.

Little Boy: Our cook has gone away and I'm awful glad. Now mamma will have to make the cake, and mamma's cake is always heavy. "Guest: I declare! Do you prefer heavy cake?" Little Boy: Yes, M. You get more chewin' in one piece.

Queer rule: Brakeman—"Rushville! Train stops here ten minutes for lunch! Deacon Blossom: "Seems to me that's a mighty queer rule, Mirandy. Well, he's got our sandwiches if we've got to eat 'em in ten minutes."

Clerk—Trotter, I call that a pretty good fitting pair of trousers. Farmer Stubblefield (from Wayback Junction): "They feel all right in the seat, but I don't see how they don't fit very snug under the arms."—Life.

Mistress (wishing to see if her message has been correctly delivered): "What did you tell the lady, Bridget?" Bridget: "I told 'em 'ey wadn't feelin' well, and 'ey wad go 'n' call 'n' em soon, and 'ey sez they was sorry to hear it."

"How does it happen that the couple over the way live so happily together? They have been married now twenty-two years and have never yet had a disagreeable day. No wonder, she goes out teaching music and I do long away from home and be a night driver on a daily paper."

"I see," observes Mr. Snuggs, "that some eminent men think the Garden of Eden was located in the Mississippi Valley." "That may be so," replied Mr. Jiggs, "for the ark rested in the Southern States." "It didn't!" said Mr. Snuggs, "the ark landed in the Arkansaw land you know."

Squeers (on Mt. Washington): "When did it cold?" Nickleby—"You feel warm as toast." Squeers—"Why do you, why, man, the thermometer is down to 10 degrees." Nickleby—"Well, I feel as warm as toast, just the same—that is, boarding house toast."—New York Sun.

Judge (to prisoner): "So you were drunk and disorderly. What have you to say?" Prisoner: "I've got a good deal to say, your Honor, if you'll only give me time to say it." Judge: "Certainly, with pleasure. Sixty days will be enough, won't it? Our object is to please."—Washington Critic.

A sarcastic lawyer, during the trial of a case, made use of the expression: "Cast not your pearls before swine." "You do, your Honor, if you'll only give me time to say it." Judge: "Certainly, with pleasure. Sixty days will be enough, won't it? Our object is to please."—Washington Critic.

THOMAS ALVA EDISON.

The Great Inventor.

Edison first saw the light in Milan, Erie County, Ohio, February 11, 1847, so that he is still a young man. The number of patents already granted him approaches two hundred. He is of mixed Hollander and English blood, his grandfather having been a Dutchman who settled near Newark, N. J., and who married into the Ogdens, a family of English descent. Edison began his working life as a news boy when only about eight years old, at Port Huron, Mich. Five years afterwards, he succeeded in procuring a contract for the exclusive sale of newspapers on the Grand Trunk Railway of Canada, to which fact is due the report that he is a Canadian. His business grew rapidly under his clever and energetic management, and was supplemented by an essay in journalism, the study of chemistry, prospecting, which he pursued with his own type and his own hands. The progress of the war at this time assisted his paper, which had at one time 450 subscribers.

Supporting his publication, he began the study of chemistry, prospecting, which he pursued with his own type and his own hands. The progress of the war at this time assisted his paper, which had at one time 450 subscribers.

Brainerd Dispatch

INGERSOLL & WELAND, Publishers.
BRainerd, MINNESOTA

A MAN in Southbridge, Mass., is a five legged mule. It is treated with more than ordinary respect.

GEN. BEN BUTLER has made arrangements to publish his memoirs. He knows lots of things and has the art to tell them in an interesting way.

Two climbers of Mr. Ararat, Russians, found in perfect preservation a minimum thermometer, which was left there last year. It registered 50 degrees below zero.

It is said that the copyright bill passed by the Dominion parliament will not be ratified in London, as English publishers make the claim that it is a violation of the Berne international copyright convention, to which Canada is a party.

The Delaware Breakwater, at the mouth of the Delaware, which has cost the United States millions of dollars, has been declared a failure, and steps are to be taken to have a better harbor made there, at a cost of not less than \$5,000,000.

MENNONITES of Lancaster county, Pennsylvania, selected a minister by lot. Twenty-one bibles, or were placed on the table, and the candidates walked around each took a book. The one drawing the slip was ordained.

A MILWAUKEE genius has established a school for the training of professional beggars. He furnishes disguises, rules for begging and a regular route for each of his pupils, telling them the stories to use and the peculiarities of those they are likely to meet. In exchange he demands half the profits.

THERE is a lady in Milwaukee who is the mother of nine children. Not one of them was named until it was twelve years old. They were simply called by their nicknames and their numbers, "one," "two," etc. When they were twelve years old each one chose his own name and was baptized.

The public schools of Troy, N. Y., have been closed on account of an invasion of fleas. The teachers and pupils could no longer come to the schools and were compelled to flee for their lives. When caterpillars stop railroad trains and fleas shut school-houses it is time for man to cultivate a spirit of modesty in the presence of nature.

For fully ten minutes a shower of red rain recently fell in Lublin, Russian Poland. The heavens seemed to be overcast with a red haze, dense and opaque. The red rain drops seemed by the peasants to be blood. A panic ensued, and the people rushed to the churches, where they were quieted by the priests. For several days after the shower all the surface water in Lublin was of a dark pink color.

TEA came into use almost by accident. Some Buddhist priests on a missionary expedition from Northern India to China took with them the dried leaves and also some cuttings of an indigenous shrub which was said to have the power of correcting any injurious properties in the brackish water they might meet on the way. The decoction thus made pleased the missionaries so well that they continued, as a matter of taste, to drink it after they reached China, and introduced it to their converts.

THERE is a real estate agent living at Kingston, N. Y., who takes a gloomy view of life, and especially of house painters, these days. A few days ago he hired an artistic house painter to paint a house which he has on his list. But unfortunately he gave the wrong number, so that it was the wrong house which received a beautiful and becoming new coat. The agent is receiving a good deal of sympathy, and the man who got his house painted for nothing is understood to be measurably resigned.

A WRITER in the Syracuse, N. Y., Journal, who went to the bottom of the grand Canon of the Colorado last winter, says: "I have been all through the Rockies from Montana to Central America and know what a chasm is, but the sight of that abyss took my breath away. From the top to the bottom it is fully 6,000 feet. Over a mile below you can see the river tearing through the gorge, but not a sound can be heard, it is so far away. From one bank to the other it is apparently not over a quarter of a mile, but as a matter of fact it is fully thirteen miles."

A SARATOGA reporter espied a couple of young ladies and two men, one a policeman, searching with a lamp along a street there late the other evening. One of the ladies, with a trembling voice, stated that she had visited the Hathorn Spring during the evening and had lost a pair of diamond earrings, valued at \$250, from a case which she held in her hand. She thought she had dropped them on the way. She had straightened up from her stooping position while speaking, and was about to resume the search, when the policeman pushed back the hair above her ear, she gave a little cry of joy and exclaimed: "I've found them in my ears! Really! I had forgotten that I had placed them there!"

PHOTO OF THE NEWS.

Being a Short Concise Collection of the Latest Authentic Press Telegrams.

In Washington. It is estimated at the treasury department that the reduction in the public debt during September will amount to \$13,500,000.

Secretary Windom is now occupying his new home on Massachusetts street, Washington. President and Mrs. Harrison were his first callers, and spent the evening with the secretary and Mrs. Windom.

Casualties. Another fissure is visible in the cliff at Quebec, and another landslide is feared. The laboratory of the Westinghouse Electric company at Pittsburgh was damaged \$100,000 by fire. Two thousand men were employed in erecting a tunnel.

The body of Mrs. Ed. Swinford of St. Louis, who met her death on Tuesday express, was taken from the debris at Johnston, Mo.

The City of Celina, Mex., is almost entirely inundated. Many families have been obliged to leave the town. St. Francis, railroad track is impeded. Heavy storms are reported at Tlalcala on the Guatemalan frontier.

Two Italian express trains running in opposite directions near Naples and Foggia, came into collision while running at a high rate of speed. Twenty carriages were smashed and fifty persons killed.

At Titusville, Fla., W. H. Adams, a postal clerk, accidentally stepped on a rattlesnake as he was walking on the public highway about midnight. The snake bit Adams' leg. He twisted a handkerchief around the wound, and the snake crawled up the wound and administered itself freely. The treatment was of no avail, and the patient died.

Five persons were drowned in South Watupond near Fall River, Mass., by the capsizing of a row boat. The drowned are: L. A. Brown, 24; J. W. Brown, 24; J. W. Brown, 24; J. W. Brown, 24; J. W. Brown, 24.

The Texas fever has broken out in Erie, Pa., with fatal effect. The city is infected by a herd of cattle shipped by Armour & Co. The cattle broke away and attacked men and children.

Forest fires are reported from many parts of California. In Santa Cruz, Sonoma and Marin counties the loss has been very heavy, as valuable timber has been destroyed.

Several mail bags containing a number of letters were stolen from the depot at Salem, Ohio.

Fletcher Winant, member of a wealthy New York shipping firm, committed suicide by shooting himself.

A Hungarian christening at Allport, near Pittsburgh, Pa., ended in a riot, in which a Hungarian named Mike Vetch was killed and two others seriously hurt.

Charles Holzer was shot and fatally wounded at Cincinnati, Ohio. Both men were paying attention to the same girl.

A farmer named Morgan has been murdered and his wife and child killed. The tragedy was the result of a quarrel between the two families.

Harry Flann, the young teller of the Marine National Bank of Pittsburgh, who was convicted of embezzling \$50,000, was sentenced to five years imprisonment.

At Wilkesbarre, Pa., a verdict of acquittal was rendered in the case of Officer David Thomas, charged with the murder of Thomas.

Advices from Crete are that the Turkish troops on the island are cruelly tormenting Christians. A number of the soldiers outraged two Christian women, one of whom was afterward killed.

At Mount Allam, sixteen miles from Bradford, Pa., John Quinn shot and killed his wife with a Winchester rifle. The cause is said to be unrequited love.

At Wilkesbarre, Pa., a verdict of acquittal was rendered in the case of Officer David Thomas, charged with the murder of Thomas.

Chief Bell of the secret service, is advised by Agent Shaw of the Louisville district, of the arrest of a man named John A. McKinnin, a manufacturer of counterfeit coin.

At Wilkesbarre, Pa., a verdict of acquittal was rendered in the case of Officer David Thomas, charged with the murder of Thomas.

SIXTH STREET BETWEEN FRONT AND LAUREL

School will begin in Oak Lawn

next Monday.
H. J. Spencer has gone East and
will be absent three or four weeks.

The Thirteen Club will occupy two

rooms instead of one hereafter.

Read what Wm. Haak has to say

about wall paper in this issue.

Miss Maudie Drossen, is teaching

the fall term of school at Deerwood.

Rooms to rent. Enquire at Ken-

edy & Co's clothing store on Sixth

street.

Monday was a wild and woolly day,

the wind blowing a gale from morn-

ing until night.

Mrs Peter Abear and Mrs. Frank

Abear returned from Seattle, Wash-

ington, on Thursday.

Chas. Gravel, of Little Falls, has

opened a flour and feed store in the

old Montreal building.

Mrs. C. B. Sleeper returned to

Brainerd from an extended trip in

the Eastern states on Tuesday.

Assistant Superintendent Vander-

see and Dr. Courtney bagged eighty

ducks at Lake Park last Saturday.

The hours for holding Sunday

evening services in St. Paul's church

has been changed from 8 to 7 o'clock.

Frank Hartley has been in the city

several days this week. He will go to

California on a business trip shortly.

Oct. 20th, will be observed by the

Old Fellows in memory of the brethren

of that order who have passed into the

great beyond.

Workmen are busy upon the founda-

tion of the new block near the cor-

ner of Fifth and Front streets. F.

Siveny has the contract.

J. H. Alderman and wife of East

Granby, Conn., are visiting with their

relatives in Brainerd. S. F. Alder-

man and Mrs. J. B. Douglas.

The fire bell called the boys out on

Monday, a blaze having started in the

planing mill at the shops, but it was

subdued before the department from this

side arrived.

The Globe says that Mrs. Celia

Renslow has applied for a divorce

from Chas. Renslow charging cruelty

and several other crimes. The parties

formerly lived in Brainerd.

There will be services at the Con-

gregational church Sunday morning,

the Rev. C. A. Conant, of Amsterdam,

N. Y., officiating. He was formerly

pastor of a church in this city.

Mike Monahan, for many years sec-

retary foreman on the Northern Pacific,

died at the Sanitarium on Saturday

morning last. The funeral was held

on Sunday from the Catholic church.

Dolph and T. J. Hartley returned

to Brainerd on Saturday from New

Brunswick, where they have been for

some weeks. Their father's illness

called them East and he died soon

after their arrival.

Seth Phillips, of Gull River,

brought in the hide of a grey wolf on

Monday which he killed near Sylvan

Lake. It is very seldom that Seth

finds an animal get away when he is

on the war path.

A novel feature of the Christmas

bazaar to be given by the ladies of

St. Paul's church about the 20th of

November will be a Merchant's Car-

nyal. Particulars will be published

hereafter.

J. L. Starcher has been in the city

several days during the present week

looking after business interests. The

gentleman expects to put up a large

brick business block on Laurel street

in the spring.

Rev. E. J. Brownson leaves with

his family for West Duluth this week

where he takes charge of the Baptist

church. Mr. and Mrs. Brownson have

made many friends during their resi-

dence in Brainerd who regret very

much their departure.

Robes, horse blankets and surcingle

The matter of allowing a logging

dam to be built on Norway Brook on

the southeast quarter of Section 31,

Town 121, will be considered by the

Cass county commissioners, who meet

in regular session next Monday at

the court house.

The state railroad commission was

represented in Brainerd on Wednes-

day by John L. Gibbs, Judge Wil-

liams and Secretary Bixby. So far

as complaints were concerned the

commissioners found little to do but

spend the forenoon viewing our

thriving city and getting acquainted

with the citizens. They favored the

Dispatch with a pleasant call.

State Auditor Braden has distrib-

uted the \$12,000 appropriated for the

encouragement of agricultural fairs

among the different societies of the

state giving each one of the fifty-four

\$222.22. It is a wonder that the Min-

neapolis Exposition management or

the state fair didn't attempt to have

the amount set aside for their benefit.

The twin city papers must have over-

looked the matter.

The Fifth Annual Fair.

The fifth annual fair of the Crow

Wing County Agricultural Society, held

on Friday and Saturday of last

week, was what might be termed a

success in every point of view, taking

into consideration the limited time in

which it was gotten up. There was

a very credible showing of farm pro-

duce and vegetables of every descrip-

tion, in fact, we doubt if there is an-

other county in the great agricultural

state of Minnesota, that can excel

Crow Wing county in products of the

soil, and although the exhibits were

not in mammoth quantities the qual-

ity was there. The stock exhibit was

not large, owing to the short notice

given to the farmers which made it

next to impossible for them to bring

in their exhibits in this nature. The

ladies department in agricultural hall

was a place of attraction and called

forth many exclamations of praise

from those who viewed this interest-

ing feature. The culinary depart-

ment was quite well represented, and

by the way the judges made way with

the pies, cakes and other delicacies in

their endeavors to give an unbiased

opinion on the merits of the different

articles we judged that they were all

palatable.

During the afternoon of Saturday

horse racing was indulged in and a

game of ball between the clerks and

train dispatchers was played—which

resulted in a tie. The Brainerd Gun

Club gave an exhibition of their skill

at shooting blue rocks, and the medal

offered by the association was won by

H. D. Powers, it being a tie between

him and Chas. Searles, but Mr. Powers

won on the shoot-off.

Below we give the list of premiums

and names of the parties who are

entitled to them:
